Dear Sir,

I hope this email finds you in good health and high spirits. My name is Piyush Atmaram Mali, a student of DESH, and I am writing to formally request an extension for the submission of my project titled *"Web Application to Find the Best Doctor,"* which is currently due on 03/02/2025.

Unfortunately, I have encountered unforeseen technical challenges during the data analysis phase of the project. These issues have significantly impacted the progress I was aiming to achieve within the original timeline. Despite my best efforts to troubleshoot and resolve these challenges promptly, the complexity of the problems has required more time than anticipated. I believe that additional time will allow me to refine the project further, ensuring that it meets the quality standards expected and delivers accurate and reliable results.

I kindly request an extension of 5 days, which will enable me to address these issues comprehensively and finalize the project with the necessary depth and precision. I assure you that I remain fully committed to submitting the project by the revised deadline of 08/02/2025, and I will ensure that it is completed to the best of my ability.

I sincerely apologize for any inconvenience this request may cause and deeply appreciate your understanding and support. Please let me know if there are any additional steps or information required from my side to facilitate this extension.

Thank you for your time and consideration. I look forward to your positive response.

Best regards,
Piyush Mali
